

**NEWTOWN BUSINESS NETWORK
WEBSITE.**

<http://newtownbusinessnetwork.com>

This note is issued as a reminder to exiting members to check their pages, send edits and updates where necessary and to pay the annual maintenance fee.

If you don't have a page please consider creating something suitable that will help you to promote your business.

Members of the Network are eligible to use the NBN Website. This service has been created to facilitate the marketing and promotion of the Network's Members Business.

The Home page is designed to attract future members and others looking for local businesses. Please give the address at the head of this note to any interested potential member. The goal is to have all member of the Network populate the site with their individual pages to their own design and specification. These pages can be up dated periodically with member's business promotions and offers.

Ultimately the site will be promoted through the media adding to the promotional activity for each member.

Information such as member's mailing list and confidential detail such as the By Laws are stored on a password restricted area. Passwords will be issued once the member has signed up to use the site and paid the maintenance fee – currently \$10. Payable annually in January. (If you forget your password contact the Webmaster Nick Afaras for a reset)

The site's Home Page has a section listing the future meeting dates and upcoming events, with an RSVP facility. The full list / roster will be available and maintained by the Secretary.

To have your business information up loaded you need to contact Nick Afaras nick@sec4pc.com with the following detail,

Remember you are populating a full page:

- 1; Your bio – any length but leave room for graphics:
- 2; Head shot – digital – for those who want their picture posted!
- 3; Logo's and designs associated with your business, maybe you have something on a business card or you may already have your own website, artwork that you have used previously is ideal.
- 4; If, you do have your own website then this is the place for a link.

Check out the site as there are already some members pages listed under their classification.

Please help the cause by adding a link to you websites to the NBN site.
